Dear Dr. Kingsley,

First of all, you don't just talk the talk  
You walk the walk, going out of your way  
in caring for your patients, very unusual  
in this day and age and I'm so impressed  
with your wonderful caring ways.

On 8/27/09 you performed surgery on my  
right leg followed 2 weeks later on 9/10/09, I had  
same procedure on my left leg. I had been  
suffering for (4) years prior with pain and  
restless legs. At one point I had soft casts on  
both legs for (1) week. I have had to sleep in  
a recliner chair for a long time. I feel God  
put you in my path. I'm so thankful I  
saw you on T.V. I know God moves in  
mysterious ways, but it's no mystery that  
God has worked thru you to perform the  
many many miracles you perform. Next  
to God, my dear man (#1). My Quality  
of life had gone way down. Now I'll be able  
to join in family activities. I couldn't walk  
any distance, could not go on treadmill.  
Now I see the light at the end of the tunnel  
and I'm very happy with my outcome  
God Bless you & your wonderful staff. I consider  
you top surgeon worldwide. Your very happy patient  
Helen Bell
